

Aberdeen Engineer Aboard

Aberdeen Daily Journal

Wednesday 17 April 1912

As indicated on Monday, there were no Aberdeen passengers aboard the ill-fated vessel, but we learn that a Torry engineer was a member of the crew. About ten days ago Mr. James Fraser, 85 Menzies Road, received a letter from his son, Mr. James Fraser, intimating that the writer, who is an engineer of the White Star Line, had received a transfer to the Titanic. Mr. Fraser's fate is, of course, as yet unknown.
