WILDWOOD, N. J., April 17---Never was so much sympathy expressed by the residents of Five Mile Beach as over the tidings that Frederick Sutton, the well-known business man, is listed among the missing probably perished [sic] in the wreck of the steamer Titanic. Mr. Sutton was connected with a number of enterprises on this beach, being president of the West Jersey Electric Company.

News was also received that George Smith, vice president of the Marine National Bank, who was to have taken passage on the lost ship, was delayed and missed her by one hour.
